

Maryland Inventory of Historic Properties

Addendum

MIHP Number: WA-I-084

Property Name: Stone House
Property Address: 10814 White Hall Road
Funkstown, Maryland

Survey Date: April 2007

This Maryland Inventory of Historic Properties (MIHP) Addendum was prepared in accordance with the Memorandum of Agreement (MOA) negotiated among H.B. Mellott Estate, Inc., the Water Management Administration Mining Program Maryland Department of the Environment, and the Maryland Historical Trust. A stipulation of the MOA required that an MIHP Addendum be prepared for each of the 14 properties nearby to the John Lung Farmstead (WA-II-149), which have a history or potential significance similar to the John Lung Farmstead.

This Addendum includes the property name, address, MIHP number, and a brief, one-to-two sentence comment on the property's condition, and one or more black and white photographs. Each photograph was printed in accordance with the photography requirements of the Maryland Historical Trust. The field survey and photography were conducted from the public right-of-way.

As of April 2007, the stone house was in good condition and retained its form as described in the MIHP form. The downspouts had been replaced and the stucco was beginning to fail.

DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This house is located on the northeast corner of the intersection of White Hall and Mt. Aetna Roads in Washington County, Md. It is situated on a slight rise of ground above White Hall Road and faces west.

The structure is a one-and-a-half story, four-bay stone dwelling covered with white stucco. The actual wall construction cannot be observed because of the layer of rough cast or stucco. The owner reports, however, that the walls are of stone. A vertical seam is present in the front elevation between the third and fourth bays from the north end of the house. It would appear that this seam marks the addition of the south section of the structure. The south bay is considered by the owners as an addition.

The three openings in the northern section are closely grouped. All windows in the house display narrow framing with two-over-two pane double-hung sashes. Windows of the front elevation are flanked with louvered shutters.

The main entrance is located in the second bay from the north end. It is simple in appearance with framing similar to that of the windows. A modern one-bay porch is located at this entrance.

The slate roof extends beyond the end walls of the house. Plain boxing finishes the eaves. A dormer window protrudes from the west slope of the roof. Brick chimneys are located inside each gable end and at the jointure of the two sections of the house.

The house is in excellent condition and stands on a tract containing 27.79 acres.

STATEMENT OF SIGNIFICANCE

The area of significance of this house is its architecture. Constructed of fieldstone it employs an important early building material for Washington County and the Cumberland Valley. The actual appearance of the windows and doors suggests a mid-19th century building date. A structure is depicted on this site on an 1859 map of Washington County. At that time the property was owned by J. Stotler. The present owner reports that his grandparents lived in the house.
